

Scooter, Never Slow Down

Hot like wax going up to the max
Starting up those lyrics on our radical tracks
Put on your headphones when I'm expressing lyrical
Like no other MC, my concept is a miracle
When I grab the microphone I don't like the slow mo
You know my flow is better than the porno in Soho
All I recommend is to be in the place
When we start jammin' up and rocking to your face
Never slow down, never slow down
Never slow down, never slow down
Never slow down, never slow down
Never slow down, never slow down, d-d-down
F-f-f-fresh on the mic you got it tonight
We're still in the mix and we've won the fight
Here is the lyrical assault and I call it rough
If someone's gonna blame us e-enough is enough
Ti-ti-ti-tired of the business sick of all the fake hellos
People run around and while they look like marshmallows
We continue our work we don't want no repeats
'Cause we know our crowd is still addicted to our beats-beats
Never slow down, never slow down
Never slow down, never slow down
Never slow down, never slow down
Never slow down, never slow down, d-d-down
N-ne-ne-nev-never slow down, never slow down
Never slow down, never slow down
Never slow down, never slow down
Never slow down, never slow down, down down d-d-down
N-ne-ne-nev-never slow down, never slow down
Never slow down, never slow down
