

# Scorpions, All Night Long

Jack it in none of them  
He'll get along  
Some like the violin, some like the horn  
She can't play on and my mind's goin' round  
Hot lovin' woman is back in town

Well just to make me feel alright  
All night long, oh yeah  
But just to make me feel alright  
All night long

Jack it in none of them  
He'll get along  
Some like the violin, some like the horn  
She can't play on and my mind's goin' round  
Hot lovin' woman is back in town

Oh, yeah  
Well just to make me feel alright  
All night long, oh yeah  
But just to make me feel alright  
All night long
