

Scorpions, All Night Long

Jack it in none of them
He'll get along
Some like the violin, some like the horn
She can't play on and my mind's goin' round
Hot lovin' woman is back in town

Well just to make me feel alright
All night long, oh yeah
But just to make me feel alright
All night long

Jack it in none of them
He'll get along
Some like the violin, some like the horn
She can't play on and my mind's goin' round
Hot lovin' woman is back in town

Oh, yeah
Well just to make me feel alright
All night long, oh yeah
But just to make me feel alright
All night long
