

Scorpions, But The Best For You

(Music: Klaus Meine, Lyrics: Klaus Meine)

Let me tell you something

In the darkness of the room
I'm leaning back against the wall
Try to walk on broken glass
A cut so deep just hurts so bad

I remember what you said
Tears were rollin' down your face
And after all's been said and done
You're a woman, I'm a man
Could I turn back the time again

You must know by now
I won't let you down
Whatever comes along the way
Don't you agree that one thing is true
I'm not the best, but the best for you

And I step outside the door (step outside the door)
Blinded by a million lights
In the valley of the fools (in the valley of the fools)
Another day went by so fast
What in the world will ever last

You must know by now
I won't let you down
Whatever comes along the way
Don't you agree that one thing is true
I'm not the best, but the best for you

There's nothin' else that we have got
But our love is like a rock
Standing up against the tide

There's nothin' else that we have got
But our love is like a rock
Standing up against the tide

You must know by now
I won't let you down
Whatever comes along the way
Don't you agree that one thing is true
I'm not the best, but the best for you

You must know by now
I won't let you down
Whatever comes along the way
Don't you agree that one thing is true
I'm not the best, but the best for you

Don't you agree that one thing is true
I'm not the best, but the best for you
I'm not the best, but the best for you
I'm not the best, but the best for you
