

Scorpions, Can You Feel It

(Music: James Kottak; Lyrics: James Kottak, Klaus Meine)

Can you feel it, love is waiting there
When you feel it, I'll be waiting there

Something has come over me
I can't explain how full and free
I want you to feel it
Suddenly deep inside I have peace on my mind
I want you to feel it

On the last day that I walked the earth
I found the answer to the question that we all search
Where do we go from here

Can you feel it, love is waiting there
When you feel it, I'll be waiting there

Come inside, now you are cold
No colours block unopen doors
I want you to feel it
Suddenly deep inside, you have peace on your mind
Tell me, can you feel it

It's the last chance to take a look inside
It's up to you to change the world for a better life
Where do we go from here

Can you feel it, love is waiting there
When you feel it, I'll be waiting there
Can you feel it, love is waiting there
When you feel it, I'll be waiting there
