

Scorpions, Out Go The Lights

Out go the lights
Out go the lights
Out go the lights
Out go the lights

Lexington Queen crazy nights
Those pretty girls are way too shy
They're on the dance floor all night long
Dancing to their favorite songs

Another night to burn the sky
The crowd is flashed by yellow stripes
They love to hang with the guitar man
Because the boys are big in Japan

Out go the lights kiss and touch
Out go the lights I will miss you much
Next stop on the bullet train
Out go the lights
Out go the lights here we go again
Out go the lights

The train arrives we're rocking hard
The party's just about to start
And when the midnight moon comes out
We're flying high we're going down

Out go the lights kiss and touch
Out go the lights I will miss you much
Next stop on the bullet train
Out go the lights
Out go the lights here we go again
Out go the lights

The sun goes down in the Tokyo bay
Mr Udo says okay
Let's have some good times for the boys
And some supersonic toys

Next stop on the bullet train
Out go the lights
Out go the lights here we go again
Out go the lights

Out go the lights kiss and touch
Out go the lights I will miss you much
Next stop on the bullet train
Out go the lights
Out go the lights here we go again
Out go the lights
