

# Scorpions, Unleash the Beast

We walk the line of good and bad  
We have a laugh and we are sad  
No matter if you're rich or poor  
You can run but there's no cure  
You can run but there's no cure

A time to rise, a time to fall  
Who saw the writing on the wall?  
One last kiss to wake the lust  
A super spread kills all of us  
A super spread kills all of us

Unleash the beast in the east  
Says the rhythm to the beat  
Diving down into the deep  
Sharks are coming, sharks are coming  
When you bleed

Spread your wings, little bird  
Time has come to save the world  
Look in the mirror, what do you see?  
A hurting soul, a human being  
A hurting soul, a human being

Spread the message, love rules  
Let's turn around this ship of fools  
We keep on dancing in the dust  
Some stay alive and some are lost  
Some stay alive and some are lost

Unleash the beast in the east  
Says the rhythm to the beat  
Diving down into the deep  
Sharks are coming, sharks are coming  
When you bleed

Unleash the beast  
Oh!

Unleash the beast in the east  
Says the rhythm to the beat  
Diving down into the deep  
Sharks are coming when you bleed

Unleash the beast in the east  
Says the rhythm to the beat  
Diving down into the deep  
Sharks are coming, sharks are coming  
When you bleed
