

# Scott Fitzgerald, Go ( Eurovision 1988 )

I never felt like this before  
Seein' you again only makes me sad  
I recall the times when we  
Were in love and had everything  
It makes me so sad  
Time is meant to heal the pain  
I thought was gone  
Seein' you again has made it carry on  
Go before you break my heart once more  
I know that's what you come here for  
Go before you say 'I love you' the way you did  
The day before you walked away from me  
Lookin' back on the times we had  
Things were beautiful then  
But how quick they've changed  
One day you were in love with me  
Then the next, so suddenly, he came along  
Time is meant to heal the pain  
I thought was gone  
Seein' you again has made it carry on, yeah  
Go before you break my heart once more  
I know that's what you come here for  
Go before you say 'I love you' the way you did  
The day before you walked away from me  
(Go before you break my heart once more)  
Just go, just go away  
(I know that's what you come here for)  
Just leave me behind to face another day  
Go before you say 'I love you' the way you did  
The day before you walked away from me  
The day before you walked away from me
