

# Scott Grimes, Carrie

She's the kind of girl  
Does what she's gonna say  
All the friends she left behind  
That never gonna get away  
Tell me honey, livin' in the sun  
Our life had just begun  
I'm alright  
I'm alright

There came a little town  
Just around the second day  
Like the friends she left behind  
How they gonna get away  
Remember Carrie  
Oh, when we were young  
And life had just begun  
I'm okay  
I'm okay

CHORUS:

Carrie, what you gonna do without me?  
They say I'm not the only one  
You got that smile I can't resist  
Now I'm not even missed am I Carrie?  
How you gonna live without me?  
I've seen the writing on the wall  
You know you'll always be an angel  
In the life that will I live without you

Early Sunday night, it read time for me to get away  
I don't love you anymore, that's all it had to say  
Tell me can you live with what you've done?  
Well I guess you're not the one  
I'm okay  
I'm okay

CHORUS (x2)

Without you
