Scott Walker, When I Kiss You Goodnite

When i kiss goodnight tonight and I'Il go home and dream. It'Il be so sweet to think of you 'cos you're my teenage queen. I hoped you liked the sodas and the show, I guess that they're alright,

but my night just wont be complete & amp;#039;til I kiss you goodnight.

I dreamed the whole week through, waiting to be with you, guess you know it's true, dating it all I wanna do. The stars above shine oh so bright as we near your front door, and kissing you will be so nice, no one could ask for more.

I hope you feel the same as me when I hold you tight you know you make my life complete when I kiss you goodnight.
