

Scotty Don't, And With It Rain

These troubles that I got don't last so long
As long as that radio outside keeps playing that song
And all those teardrops fallin' down just hide themselves
Ain't gonna bother me not you not them or anybody else

I said it's alright It's okay
It doesn't matter what goes on today
Because tomorrow is just around the corner
And with it rain will wash away yesterday

I said it's alright It's okay
It doesn't matter what goes on today
Because tomorrow is just around the corner
And with it rain will wash away yesterday
