

Scotty Don't, Fallin' Down

As long as I'm at home I'll never be alone
And as long as I'm asleep it's those dreams that I can keep
And when I gotta go there ain't nothin' I can show
Except those sweet goodbyes and those closing tired eyes

Oh right now
I'm fallin' down
And I just wanna hear that same old sound
Cause right now I'm on the ground
And all I want is you to stick around

No doubt that I'll be back as sure as daylight fades to black
Just slowing down my time and reassembling my rhyme
And when I start to fall short of anything at all
I'll get back up again but I really don't know when

Cause right now
I'm fallin' down
And I just wanna hear that same old sound
Cause right now I'm on the ground
And all I want is you to stick around
