

Scotty Don't, So Easy

It makes no sense for me to run
So I'll be layin' low until the day is done
When you're ready I'll be hear to hear your reason
Because it's you and you alone I can't be pleasing

And I will never fall in love again
Cause only my heart feels the pain

Cause it's so easy
til the hard times try to tease me
And it's so nice until I make a sacrifice
No sticks and stones no broken bones
No feelin' like another clone tonight

And I will never fall in love again
Cause only my heart feels the pain

Why must I cry these tears from mine eyes
Why must I cry these tears from mine eyes
Why must I walk this lonely lonely road
Why must I carry this heavy heavy load

And I will never fall in love again
Cause only my heart feels the pain
