Scotty Don't, So Easy

It makes no sense for me to run So I'll be layin' low until the day is done When you're ready I'll be hear to hear your reason Because it's you and you alone I can't be pleasing

And I will never fall in love again Cause only my heart feels the pain

Cause it's so easy til the hard times try to tease me And it's so nice until I make a sacrifice No sticks and stones no broken bones No feelin' like another clone tonight

And I will never fall in love again Cause only my heart feels the pain

Why must I cry these tears from mine eyes Why must I cry these tears from mine eyes Why must I walk this lonely lonely road Why must I carry this heavy heavy load

And I will never fall in love again Cause only my heart feels the pain
