

SCOUR, Infusorium

Infusorium Dystopian...
The brotherhood of the black fog...
Greater Ventriloquism...
Bring down the skies...

Levers pulled...
Dead eyes shift...
And the pendulum drops & tilts & sways...
Crust of swale...

Qliphothic Tree of False-Life...
Growth in death...
Death is growth...
Black opaque mask...

Turned valve (and) breathed deeply...
A mockery of creatures...
An explosion from inside out...
A mockery of features...

Skull embedded face up...
Buried feet first...
Faces just above the soil...
Mouth hung open...
Heads twisted backwards, facing up...
