

Scout Niblett, Relax

Calm with your noise
your little voice
It's the only way to relax
so you forgot what you sound like
that's no way to relax
turn the sound down to hear yourself
it's the only way to relax
Calm with your noise
your little voice
I smell fear cookin' somewhere 'round here
I smell fear cookin' somewhere 'round here
c'mon scout, relax, nothing's yours anyway

Calm with your noise
your little voice
as I go away you
