

# Scratchingpost, Keep Looking My Way

Hey there boy, why you looking down?  
Come back here cause I want you now  
It wont hurt we'll have a little fun  
I wont wait till we get it done

Keep looking my way  
Blow a kiss  
I'll make you feel better  
Keep looking my way  
Give me a chance  
I'll make you forget her  
I'll make you forget her

What if I make you feel good,  
I would care if only you could,  
Right now, lets go,  
Think of all the times we've wasted  
Right now you, feel good  
Think of all the times we waited

Keep looking my way  
Blow a kiss  
I'll make you feel better  
Keep looking my way  
Give me a chance  
I'll make you forget her  
I'll make you forget her

What if I make you feel good,  
I would care if only you could,  
Right now, lets go,  
Think of all the times we've wasted  
Right now you, feel good  
Think of all the times we waited  
Keep looking my way  
Blow a kiss I'll make you feel better  
Keep looking my way  
Give me a chance I'll make you forget her  
I'll make you forget her

And I'm looking your way (X2)
