

# Scream Maker, Liberty

Do you know how it tastes to be free  
What's the meaning of liberty  
Do you know how it feels when it's lost  
Living in slavery

They want to tell you  
What's right and what's wrong  
And then force you to crawl  
And if you let them  
You're lost and you're wasted  
Forever and ever you're done

Looking back I can see those mistakes  
I can see the points we failed  
Can we change frankly it seems to me  
Now the power is all theirs

They want to tell you  
What's right and what's wrong  
And then force you to crawl  
And if you let them  
You're lost and you're wasted  
Forever and ever you're done And when we wake  
It'll be too late  
flame has already stopped burning  
And when we wake  
Then we will see  
At this point there is no returning
