

# Screaming Trees, Julie Paradise

A dog hides in the night  
Don't know wrong from right  
A dog hides from the heat  
I need sugar sweet, I need some  
But she says I'm going to ruin my mind  
Something's gone wrong inside  
I'm thinking paradise  
All that I want  
And a little water  
And a little water  
Something's going wrong in my mind  
Something's going wrong inside  
I'm thinking... paradise  
Julie your mother cried  
Sent home a bullet for the family  
That's how your father died  
Died a broken and lonely man  
Something's going wrong in my mind  
Something's going wrong inside  
I'm thinking hey...  
Hey Lord keep ahold  
You don't ever know where to fall  
Hey Lord keep ahold  
You don't ever know where to fall  
A dog hides in the night  
Don't know wrong from right  
A dog hides in the heat  
I need sugar sweet, I need some  
But she says I'm gonna ruin my mind  
Something's gone wrong inside  
I'm thinking... paradise  
Julie your mother cried  
Sent home a bullet for the family  
That's how your father died  
Died a broken and lonely man  
Something's going wrong in my mind  
Something's going wrong inside  
I'm thinking... paradise  
Paradise... paradise
