

# Screaming Trees, Smookerings

Smokerings drift in the wind  
Looks like they're never comin' back again  
A sideways street til we reach the end  
Wishin' all the while that I never been  
Feelin' like the leaves that'll blow by fast  
Makin' me think nothin' ever lasts  
Reflection in a shade of grey  
Now I don't remember why I ever stayed  
Dark clouds are movin' in  
Dogs howl out in the wind  
Smokerings drift over me  
Smokerings they're dreams  
Ice cold kiss on a cold steel rail  
Like all of the signs that I watch fail  
You told me that you never wanna change your place  
Just another story that you can't erase  
Dark clouds are movin' in  
Dogs howl out in the wind  
Smoke rings drift over me  
Smokerings they're a dream  
Smoke rings drift in the wind  
Looks like they're never comin' back again  
A sideways street when the fall steps in  
Wishin' all the while that I never been  
Dark clouds are movin' in  
Dogs howl out in the wind  
Smokerings drift over me  
Smokerings they're dreams
