

# Screw 32, Don't Let Them Take You Alive

There is a weight in all of us  
And a choice made that will free us  
So our minds are made up to this point  
The obsequious refusal noise

[Chorus]  
You're not far to grow away  
Fears gone you know of yesterday  
Not so alone to scratch the veil  
and live for life that's not for sale

Look up to what you don't recognize  
advancing time we don't ask why  
Don't you know they still will come and go  
But don't let them take you alive  
Perdition's taste in you instilled  
Real ones replaced in that it's killed  
You know the light the phoenix song  
It burns twice as bright and half as long

Here's your program [x2]

[Chorus]  
We'll stay alone [x3] We don't need them  
We'll stay alone [x3] We don't need them
