

Screw 32, Don't Let Them Take You Alive

There is a weight in all of us
And a choice made that will free us
So our minds are made up to this point
The obsequious refusal noise

[Chorus]

Your not far to grow away
Fears gone you know of yesterday
Not so alone to scratch the veil
and live for life that's not for sale

Look up to what you don't recognize
advancing time we don't ask why
Don't you know they still will come and go
But don't let them take you alive
Perdition's taste in you instilled
Real ones replaced in that it's killed
You know the light the phoenix song
It burns twice as bright and half as long

Here's your program [x2]

[Chorus]

We'll stay alone [x3] We don't need them
We'll stay alone [x3] We don't need them
