

Screw 32, Something You Said

This time we stepped into a shirt
that doesn't fit us anymore
Into a hle a life a deal
And didn't even ask what for

[Chorus]

The only road that leads us back
To the place we were that place at last
We argue thin same point again
It washed away the new blew in
Hold on today had to begin
All just names To life the dark
Its just the same to leave a mark

Who's the guy who talks
about the ones he never knew
Talking about on and on about
The things he would never do

[Chorus]
