

# Sea Of Desperation, htaeD

I can't endure  
My horrid past  
Sending up  
Through spiritual lonely pattern

October tide  
My demise  
First step  
To touch the heavens

Freezing move and echoes  
Swoon at way

Men in my head  
Which I loved  
Playing wasted forgotten deeds  
Deja-vu  
Makes me sad  
Your ghost on the shores  
Redemption, love and death

Eerie face of time  
Staring at me

I'm alone in drifting boat  
Dying all alone  
And her spirit came to me  
Then livelong grief is gone  
Entire right and wrong

Sparkling at my sight  
Whimpering angels died  
Smothering atmosphere  
Press me harder

Freezing moon and echoes  
Swoon at way

Whisper me the name  
One I won't forget  
As suffers as joy as life  
Cast me reflection  
On the crystal surface  
When the real and past meets  
One drop can crush everything
