

# Seabound, Dunnocks

Another boring day is close to the end  
We share the last glass of wine  
Much too tired to move, head on my hands  
Avoid to look into your eyes

Let's watch a movie, watch a comedy  
Watch pornography  
Fast food for our minds  
The rich man's far too fat  
I don't like his grin  
But all the women try to mate with him

If we really share a functional design  
An adapted mind  
This might prevent our lives from parasites  
Still, it's a big waste of time

All the answers  
To the questions  
This protein structure asks  
Play 'hard-to-get' and this is  
Why we want them so badly  
I'd like to regress  
To an infant psyche  
'Feed me, feed me, feed me'

If we really share a functional design  
An adapted mind  
This might prevent our lives from parasites  
Still, it's a big waste of time
