

Seafood, Dear Leap The Ride

It's a shame, but its funny how I
Could never find the words to describe
How I feel, so restless for more
Guess I'll wait like I've waited before

So pleased to know we will get there in the end
To leap the ride and take a step back from the edge

The sinking ship has left me for dead
Nothing to lose but the mess in my head
And you could call, you could call me anytime
And you could call, you could call me if you like

So pleased to know we will get there in the end
To leap the ride and take a step back from the edge
From the edge
From the edge
From the edge

A way of letting go, a way of saying goodbye
A beautiful reward will come to you in time
