

Seafood, This Is Not An Exit

You know, like the last person alive you can't complain
You've been strong enough to survive in this low range
So take your choices now cos you're to blame for this lack of change

So put up a fight, it's not over
The twist of the knife can only bring you closer
This is not
This is not
Not an exit

Inside, the silence hits you hard and wears you out
I'm standing where you stood and I'm stuck myself
Opinions come and go but never help
So wrecked with doubt

So put up a fight, it's not over
The twist of the knife can only bring us closer
This is not
This is not
Not an exit

So put up a fight, it's not over
The twist of the knife can only bring us closer
This is not
This is not
No, this is not
This is not
Not an exit
