

Seafood, Western Battle

Blind leading blind
Got to get away from now on
Got to get a skin that I can feel
Time for me to breathe it's been too long.

So plenty ties the mind
I could use a little more
Well you think you got it right
You could do a little more.

So I'll keep moving through your star lands
I'm closing, where you going to run to next?
All the wasters come alive
And all the wasters come alive
And all the wasters come alive
All the wasters...

Line linking to
I got myself a line linking from
Still laughing at the best that you can do
I'm laughing 'cos I know I'll soon be strong.

Plenty ties the mind
I could use a little more
Well you think you got it right
I could use a little more.

I'll keep moving through your star lands
I'm closing, where you going to run to next?
All the wasters come alive
And all the wasters come alive
And all the wasters come alive
All the wasters
And all the wasters.

All the wasters (come alive) x 4

Plenty ties the mind
I could use a little more
Well you think you got it right
You could do a little more.

So I'll keep moving through your star lands
I'm closing, where you going to run to next?
I'll keep moving through your star lands
I'm closing, where you going to run to next?

All the wasters come alive
And all the wasters come alive
And all the wasters come alive
And all the wasters come alive.
