

Sean Kingston, Seasonal Love (feat. Wale)

That summer time love
Is it in the way the time love
This way before
Get you ready to go
One night to love
Got that seasonal love
That summer time love
Is it in the way the time love
This way before
Get you ready to go
One night to love
Got that seasonal love

Day right can OD
You should get off that D
Imma be right back
Pick her up in my new V
Girl you got that good good
I can't even lie
I ain't even trippin
Girl I know I am that guy
Girl don't hold back
Bust all these racks
Show money no tax
Young girl just like that
You gonna see about me
If that girl stay so?

20000 cup a bottle and 20?

What up boy?

That summer time love
Is it in the way the time love
This way before
Get you ready to go
One night to love
Got that seasonal love
That summer time love
Is it in the way the time love
This way before
Get you ready to go
One night to love
Got that seasonal love

Look, couple?she caught?em
Summer feelings now all of?em
I?m cold baby, I?m a winter
Spring out of your body
Rain down of yo lower
Cause I?m up there like I?m hold up
I could be in love with yo life
Feel like I don't know you

Fuck around don't really understand
Just say I can go you rap
Cause she move quick no need to?
Don't mean to borrow but?

20000 cup a bottle and 20?

What up boy?

That summer time love

Is it in the way the time love
This way before
Get you ready to go
One night to love
Got that seasonal love
That summer time love
Is it in the way the time love
This way before
Get you ready to go
One night to love
Got that seasonal love

Damn girl do you really understand that you
You got that seasonal love
Damn girl do you really understand that you
You got that seasonal love
Damn girl do you really understand that you
You got that seasonal love
Damn girl do you really understand that you
You got that seasonal love

That summer time love
Is it in the way the time love
This way before
Get you ready to go
One night to love
Got that seasonal love
That summer time love
Is it in the way the time love
This way before
Get you ready to go
One night to love
Got that seasonal love
