Sean Lennon, Falling Out Of Love

Please just forget me Never let me into your heart Cos the one thing i am afraid of Is falling out of love

Please i'll forget you Never let you into my heart I left you standing Standing in the dark It's all falling apart

Stay away I'm not myself No one can help me now

I've lived for the devil With a head full of devilish things It only was because Cos i was so afraid Of falling out of love

Stay away I'm not myself No one can help me now

I've lost my way Don't follow me I've lost my way Ohhhhh.
