VERSE 2

We block it and rock it and make thwm just
Can't forgot it... when we chat it we lock it
And now see them a follow back it... them
Want fi copycat it but a we a top a top it...
Them no want fi see we clock it neither fi
See we chop it... them use it and fuse it that
A de history of we music... when we fan them
A choose it should a never let them abuse it
Them a try fi confuse it like them want we fi
Lose it... but all weh them a gwaan we still
Deh ya a boost it... just turn up the treble
And the bass make it play... party non-stop
From a night till a day... and no matter weh
The hypocrite and critic them a say... reggae
Music deh ya fi stay... weh me go so then
