

Sebadoh, Downmind

I feed on you; you feed on me
When we agree, it's good to be bold
When you act frightened, I'll make you feel stupid
Cuz nothing's more stupid than thinking I'm evil
But if you smile then I'll smile, too
There's nothing better to do
I'm just me-- listen to me
A old All-American original
You're down in the mind
And don't say I don't see
You're treating me badly; it's pulling me downmind
Can't bring me downmind, sorry-sack downmind
You're not an only fully true sad man
Though I may seem a flaming total bitch
I'm a special friend
I'm just me-- listen to me
A old All-American original
You're not the cool-cool
You're just a scared fool
Thinking I'm evil & sure of your sickness
Sick just to follow; follower gutless
Mistaken for goodness
And pulling me downmind
Down in the mind; you're sick in the soul
You're treating me nicely; it's pulling me downmind
I'm just me-- listen to me
A old All-American original
