Sebadoh, Got It

I don't quite get it, but I know you've got it I don't care if nothing else goes my way all day I'm taking your morning warmth with me out into the day And I don't care if nothing else goes my way all day I think I can stay here a while with you You make me feel much better Scared indeed to be without Storm renders compass useless Unwanted to be here I feel the end of something Everything before us is hopeless Everything before I don't quite get it, but I know you've got it I don't care if nothing else goes my way all day I'm taking your morning warmth with me out into the day I don't care if nothing else goes my way all day
