

# Sebadoh, It's So Hard To Fall In Love

It's so hard to fall in love  
Knowin' all I know  
Seeing all the things I see  
Maybe I should crawl away for awhile  
Maybe I shouldn't have smiled so much  
Who's the one with the killing secret?  
The stupid little boy with the killing crush  
Count the times that you looked away  
Thinking over and over  
Every word we had to say  
Now I know what I wanted  
Another chance to reach too high  
Nothing will last forever and ever  
I'm just next in a long, long line  
The closest thing to me I've ever seen
