

Sebadoh, More Simple

They're quite more simple than you
They don't see half that you do
You're walkin' on clouds way up high
Life has been cuddled in your mind
They're guessing suspicious, not true
But we're not to care like you do
You skip leaves over bows
God makes you sound like you do
They're quite more simple than you
They're quite more simple than you
They're quite more simple
