

Sebadoh, Waited Forever

Burn my mind, let's burn some time together
I need the taste of something strange
I won't deny it if you don't deny it
I won't leave here in shame
It's not weak to give in
Taste the bounds of natural rhythm
A willing girl is hard to find
The day you let me in
I killed my only friend
I've ruined everything this time
Dirty boys get hit
I should've waited forever
(I should've known all along)
I should've waited forever
(I let it happen)
