

# Sebastian Bach, Everybody Bleeds

Newsflash! This just in:  
Everybody bleeds!  
Everybody burns.  
Everybody drowns

Straight up dangerous  
Cold blooded, venomous  
The child who speaks & won't give in

Won't get a 2nd chance  
No time for sweet romance  
For those who lead us  
Into sin

Well, I don't like what I see  
What we've become to be  
The die is cast, they'll take you down

Everybody bleeds  
Everybody burns  
Everybody drowns

It's hard to say & you don't wanna hear  
They didn't want us to know  
World gone outside  
Try to find out a plan  
How to understand  
the Child Within the Man

Defendant, do you plead?  
Guilty in First degree  
A generation selling out

No more left or right  
No matter black or white  
The situation? Volatile

From the mouths of babes  
The Mother we must save  
No longer living in denial

Everybody bleeds  
Everybody burns  
Everybody drowns

It's hard to say & you don't wanna hear  
They didn't want us to know  
World gone outside  
try to find out a plan  
How to understand

the Child Within the Man

She's sick of the misery  
& the million times that he lied to me  
Can't say we got a lot to lose  
When when we got is what we choose

Denial  
What we got to lose  
Denial  
What do we choose?
