

Sebastian Bach, Take You Down With Me

Why is it no surprise
I'm succumbing to fear?
Unforeseen alibis
In my head I can hear

Devil on my shoulder
Taking control over
Action/reaction
I just can't set it free

Take you down
If I'm gonna die, take you down with me
Take you down
And I know it ain't right, take you down with me

I try to understand
War, suffering & pain
Turning mankind against man
A generation is slain

Angel on my shoulder
Fighting for control over
My temptation to
Destroy all that I see

Take you down
If I'm gonna die, take you down with me
Take you down
And I know it ain't right, take you down with me

Take you down
If I'm crucified, take you down with me
Take you down
From the mountain on high, take you down with me

Oh, yeah

Take you down
If I'm gonna die, take you down with me
Take you down
And I know it ain't right, take you down with me

Take you down
If I'm crucified, take you down with me
Take you down
From the starry sky, take you down with me
