## Sebastian Bach, Take You Down With Me

Why is it no suprise I'm succumbing to fear? Unforeseen alibis In my head I can hear

Devil on my shoulder Taking control over Action/reaction I just can't set it free

Take you down
If I'm gonna die, take you down with me
Take you down
And I know it ain't right, take you down with me

I try to understand War, suffering & Dain; pain Turning mankind against man A generation is slain

Angel on my shoulder Fighting for control over My temptation to Destroy all that I see

Take you down
If I'm gonna die, take you down with me
Take you down
And I know it ain't right, take you down with me

Take you down
If I'm crucified, take you down with me
Take you down
From the mountain on high, take you down with me

Oh, yeah

Take you down
If I'm gonna die, take you down with me
Take you down
And I know it ain't right, take you down with me

Take you down
If I'm crucified, take you down with me
Take you down
From the starry sky, take you down with me
