

# Secret Discovery, New Generation

It's just the energy of hate, disappointing me  
it's just the simple way of fate, it's so real  
I watch it all with my own eyes, my sensuality  
completely different to yours, seems so unreal  
It's just the energy of lies, swallowing my dreams  
it's just the end of boring days, it's so real  
I watch it all in different ways, my sensuality  
completely different to yours, seems so unreal  
I can fly .... I'm the child of a new generation  
It's just the energy of rage, laying waste my head  
it is the death of shining lights, so real  
I watch it all ...  
I can fly ... I'm the child of a new generation
