Secret Sphere, Labyrinth Of Glass

My eyes can see so close, the invisible walls which force you in conformed paths guiding your mind under a bright sky of painted glass

(PRE CHORUS:)
Without a hole
to the warm rays of sun
Ohh!
Find the way, to escape from the dark
no fear, of the pen sight
For mankind now
I swear, captivity
no more shall last

(PRE CHORUS II:)
Will never fall my hope
no time I'll waste
Noway, has to fall my hope
no time I'll waste

(CHORUS:)
My neverending need to run out shows the way to break the glass and find yourself lonely in a fake mankind
