

Seed, End Of Days

Vers 1:

taste that taste it tastes delicious
baby you can read my wish
you are too much food to finish
stay right here and eat my dish
electric blood and more desire
my veins are like a hot wire
pumping power empire
im m a flyer take me higher
take my world and take my kisses
baby you are such a bliss
you are acting so ambitious
come i show you what you miss

seems like you know what to try out
you know what all this is about
you got riddim i m a rider
you wanna burn? zip my lighter!
What you see is what you get
your eyes make my eyes wet
your face in the sunset
what a pleasure to see that
the sound of things you've said
still rings on in my head
it's a nice place we are at
i wish i'll never forget

Chorus:

it's the end of the day
you are with me on my way
we will ride through the night
nothing bad in going mad

Vers 2 (maya):

come here and tear up me dress
a long time mi ready fi braek out
gimme the hotter slackness
let me glow in the darkness
