

# Seether, Empty

I see you  
I want you  
I Need you  
Confront you  
I love you to rape me  
I need you to break me

Tell me how to sit around  
Making my life so empty  
Tell me how to sit around  
I don't think you wanna know me

I feel you conceal you  
I hear you I fear you  
I steal you to heal you  
I feed you and milk you

Tell me how to sit around  
Making my life so empty  
Tell me how to sit around  
I don't think you wanna know me

I can't be, I can't be  
What you want
