"fallen branch"

Please remember! this translation is my personal work. it is sometimes difficult to translate word for word in the other. but I think you can get the general idea!

He has gone, and I'm left here sad
Without the affection of the man
Who for so long protected my life
Today, like a fallen branch
Today, like a fallen branch
Today, like a fallen branch
I'm just waiting for my life to die
I suffer for his love
But there's no remedy now
'cause he's gone, I know
With another woman
And I'm hurt

That's why i'm
Like a fallen branch
Like a fallen branch,
Which day by day loses life

Today, like a fallen branch
I'm destroyed, well you wanted it
Today, like a fallen branch
Today, like a fallen branch
I'm waiting for my life to die

I suffer for his love
But there's no remedy now
'cause he's gone, I know
With another woman
And I'm hurt
That's why i'm
Like a fallen branch
Like a fallen branch,
Which day by day loses life
