

# Self, I Am A Little Explosion

hello  
let's play some music  
follow me

let's make some noise with some pots and pans - repeat 8x

where did you go  
where could you be  
i better find a way to write back home  
i feel the flow of electricity  
better call before the fuse is blown

- chorus -  
i am a little an, explosion  
i am that's all i am explosion

you once were told you once were free  
i drew a map my destinations unknown  
morticians faint whenever you breathe  
i'll see the light before i'm buried and bones

\* repeat chorus \*

starlight blinding  
i will go away  
same old rigmarole  
i will explode

she's in my shadow  
i avoid the street lights  
she loves her sweater  
clothing is her birthright  
she's heavy metal  
moshing in the moonlight  
she writes me letters  
poetry keeps her up nights  
\* repeat \*
