Selma, If I Had Your Love (Eurovision 2005)

If I had your love
You would be
What most inspires me
Sacred soul
Fantasy
Brightest light
Guiding me on wings
You would be the heart inside me
What I'd wish
On a star
All to me
That is what you are
If I had your love
I could live my dream
Flying high above
Everything
If I had your love
You would light my world
That would be enough
I had your love
If I held you close
Feeling your heart beat beside me
Fast asleep
Wide awake
Every step
Every move I make
If I had your love
I could live my dream
Flying high above
Everything
If I had your love
You would light my world
That would be enough
I had your love
If I had your love
I'd live out my dream
Flying high above
Oh yeah...
If I had your love
I could live my dream
Flying high above
Everything
If I had your love
You would light my world
That would be enough
I had your love
