

# Send More Paramedics, Send More Paramedics

Nightmare grimace seen  
Glimmering through swell  
Shadow under water  
Closer through this veil  
Zombie deathfish strikes  
Mutilating jaws  
Automatic bite  
Savage wounds are torn

Impossibility of death  
Serried razor knives carve through putrid flesh  
Hellish breakneck plunge back down to the depths  
Rank cadaver resists with insane strength  
Immolated in elemental wastes  
Blind assassins draw close in death's embrace  
To their killing compulsions eager slaves  
Unrelenting hate, all-devouring rage

Zombie  
Versus Shark  
Mindless mass murderers locked thrashing in the dark  
Look at those soulless eyes  
There's something dead inside  
It's from hell

Back in for the kill  
Dismemberment complete  
Organs flowering  
Flecks of shredded meat  
Down into the dark  
Twitching fragments sink  
Writhing body parts  
Gnawed by sightless fish

Within the white belly of the beast  
Severed zombie head laughs through shattered teeth  
Malevolent mutant spirochete  
Replicating with pathogenic speed  
Now deep within this blood-pink sea  
Stalks a deathless killer straight from your direst dreams  
Zombie deathfish with microbe-strangled brain  
Resurrected to kill and kill again!

Zombie  
Versus Shark  
Mindless mass murderers locked thrashing in the dark  
Look at those soulless eyes  
There's something dead inside  
It's from hell
