

# Sense Field, Anniversary

It's to you  
from me  
hope you like it  
hope it's alright

for you  
from me  
you can remember  
this is alright

you know just living a lie  
sometimes it's never enough

close to you  
close to me  
it feels good  
it feels nice

undressing you  
undressing me  
does it feel good?  
does it feel nice?

you know just living a lie  
sometimes it's never enough

back together forever  
till death do us part

(I tried very hard on the below part, but I don't think I got much)

know that it's real  
with your sky that you feel  
and your ready to heal  
and your starting to feel it a lot

anyone knows that the scars you have shown  
...(?)  
...(?)  
...it comes and goes in your life
