

# Sense Field, Futon

he was drinking alcohol again with friends  
they wanted to be happy all the time  
the dream is yours and mine  
but someone said that alcohol's no good  
no good for mind and soul  
or body when you lose control  
I think I want to light something on fire  
I'm going to light something on fire  
I'm going to light something on fire  
what am I afraid of?  
what are you afraid of?  
what are we afraid of?
