

# Sense Field, Strung

I present to you the present  
I present to you my gift here and now  
I know that I'm hearing it now  
I present to you my undying love  
eyes with sight farther than I could ever see  
I present to you my faith in you  
this is the biggest part of me  
this is the biggest part of me  
here is the biggest part of me  
all the love I've had at once  
with all my heart  
and with all my soul  
my spirit is the biggest part of me  
all the love I've had at once  
with all your heart and with all your soul  
the Great Spirit is here with me  
here with me  
I present to you my heart  
will you help me carry it  
it's gotten so heavy over the summers  
this is the best one of my life  
I now leave you with my soul  
be gentle it's all I have left  
I present to you my trust in you...  
this is the biggest part of me  
all the love I have at once  
these are all of my life here  
this is the best one of my life...
